

2020 Toyota Prius Prime

November 04, 2019

Image not found or type unknown

Hybridization is now considered commonplace, but it all started two decades ago with the introduction of the first Toyota Prius in the U.S. Today, the Prius remains one of the world's most fuel-efficient vehicles without a plug, with EPA-estimated 58 city / 53 highway / 56 combined MPG fuel economy ratings (Prius Two Eco). The

AWD-e system adds even more options for the iconic Prius model. For 2020, the Prius offers a new Toyota Audio 7-in. Touch-Screen Display on L Eco, LE and XLE, new Apple CarPlay® and Amazon Alexa Compatibility standard on all model grades and newly standard Safety Connect on all grades. The 2020 Toyota Prius Prime offers a new 5th seat for even more room, Standard Apple CarPlay®, SiriusXM® and Amazon Alexa compatibility, two additional 2.1A USB ports for the rear passengers and so much more.
