Plano, Texas (March 18, 2020) – Protecting our environment and imagining a better world are among the themes of the award-winning futuristic car designs by nine young artists selected as the U.S. Winners of the 2020 [Toyota Dream Car USA Art Contest](#).

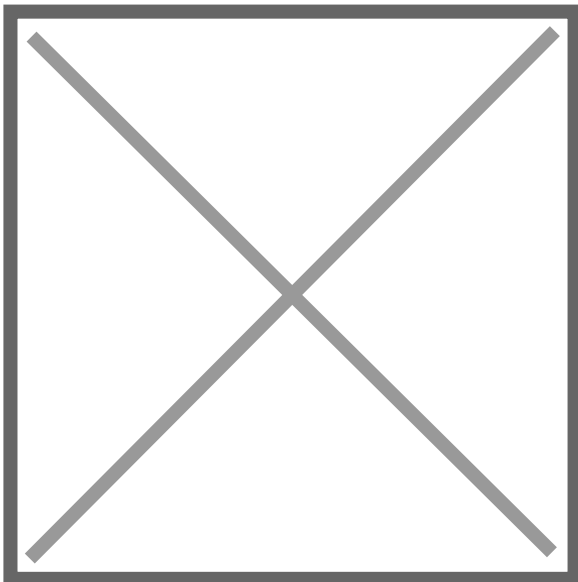

This year's nine U.S. Winners were chosen by a national panel of judges who assessed artwork by 41 U.S. finalists; the latter of which had been selected by Toyota team members and dealer employees nationwide from a pool of 97 U.S. semi-finalists. At 1,700, the contest received a record number of artwork submissions this year, reflecting nearly a 100% increase over last year. All artwork submissions were entered in one of three categories (4-7 years; 8-11 years; and 12-15 years) and judged within their age group for artistry, uniqueness, and execution of concept.

“The brilliance of all the youth who submitted this year is astounding. Their art integrated several of Toyota's strategic focus areas including mobility, environmentalism, and diversity, with an unrestrained, youthful lens,” said Mike Goss, General Manager, Social Innovation, Toyota Motor North America & President, Toyota USA Foundation.

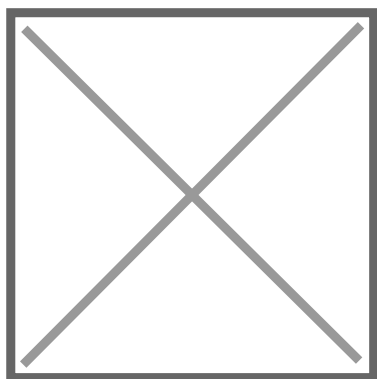

“I'm so honored and excited to help judge for the Toyota Dream Car USA Art Contest. It's deeply inspirational to see the dreams and ideas created by this amazing young talent,” said Jay Ward, Creative Director of Franchise, Pixar Animation Studios.

While the geographic reach and demographics of the contest are quite diverse, this year's winners are all girls from one of four states: California, Michigan, New Jersey and Washington. For a full list of U.S. winners, U.S. finalists, and U.S. semi- finalists for the FY20 Toyota Dream Car Art Contest organized by state and award level, [click here](#).
