

2021 Toyota RAV4 Hybrid

October 08, 2020

Image not found or type unknown

In any RAV4 Hybrid, the Toyota Hybrid System II (THS II) works in sync with the 2.5-liter 4-cylinder Dynamic Force Engine to make the Hybrid models performance and efficiency leaders of the RAV4 family, with an EPA-estimated 41/38/40 MPG. It is truly the no-compromise compact SUV.

New for 2021 includes the XLE Premium grade for RAV4 Hybrid. Modeled off the gas version with some new additions, features of the new RAV4 Hybrid XLE Premium include 18-in. 5-spoke super-chrome-finished sport alloy wheels, Power Moonroof, LED projector headlights with chrome bezels, Leather-trimmed tilt/telescopic 3-spoke steering wheel with silver accent and audio controls, 5-passenger seating with SofTex®-trimmed seating surfaces and so much more.
