

Toyota Recalls Certain 2023 and 2024 Toyota Corolla Vehicles

November 21, 2024

PLANO, Texas (Nov. 21, 2024) — Toyota is conducting a safety recall involving certain Corolla vehicles produced from July 2023 to September 2023. Approximately 8,000 vehicles in the U.S. are involved in this recall.

A part of the steering shaft, which allows the steering wheel to control the direction of the front wheels, may have been manufactured with cracks. If the cracks grow over time, this part of the steering shaft can separate and can lead to a loss of steering, increasing the risk of a crash.

For all involved vehicles, Toyota dealers will replace the steering intermediate shaft with a new one, free of charge.

Customers will be notified about this issue through the mail by late January 2025.

Information about automotive recalls, including but not limited to the list of involved vehicles, is current as of today's filing date and is subject to change thereafter. To see if your vehicle is involved in a safety recall visit [Toyota.com/recall](https://toyota.com/recall) or nhtsa.gov/recalls and enter your Vehicle Identification Number (VIN) or license plate information.

For any additional questions, Toyota customer support is also available by calling the Toyota Brand Engagement Center (1-800-331-4331) for Toyota vehicles.
